

The open-air museum is open when Siida-building is closed

The Siida Building will be closed for the renovation phase, but you can visit the enriched open-air museum. You will find customer service, Siida Shop and tourist info in temporary buildings next to Siida. Restaurant serves in the new restaurant wing.

Siida's new exhibition 2022

Siida's current permanent exhibition will be renewed as the Siida building is renovated.

The new exhibition is made in collaboration between the Sámi museum and the Nature center, and it tells the entwined stories of the Sámi people and nature. The traditional knowledge of the Sámi people has carried through changes in nature and society for generations. The scenery around us carries the marks of millions of years, but what kind of nature are we leaving behind ourselves?

The current exhibition is open until the end of April 2021 and the new exhibition will be opened in spring 2022.
